HEAVY DUTY SEATING OPTIONS

CUSHIONS

JAY® wheelchair cushions are designed to stabilize the pelvis, protect skin from the risk of breakdown, and position the body. Premium materials and positioning components create low maintenance and highly personalized seating solutions. Weight capacity dependent on cushion size.

JAY FUSION® with Cryo™ Technology: **500 lbs. weight capacity**

JAY FUSION®: **500 lbs. weight capacity**

JAY UNION®: **500 lbs. weight capacity**

JAY ION®: **500 lbs. weight capacity**

JAY J2® Plus: **650 lbs. weight capacity**

JAY J2® Series **500 lbs. weight capacity**

(JAY J2 & JAY J2 Deep Contour)

JAY J3®: **500 lbs. weight capacity**

JAY BasicPRO®: **500 lbs. weight capacity**

BACKS

JAY wheelchair backs are designed to stabilize the pelvis and torso. Their contoured back shells, soft foam, and adjustable components offer stability and comfort to reduce fatigue and maximize function. Ride in confidence knowing we've got your back! Weight capacity dependent on hardware.

JAY J3® Plus (with optional vanity shell): **500 lbs. weight capacity**

JAY J2® Plus: **500 lbs. weight capacity**

JAY GO: **500 lbs. weight capacity**

FOLDING

VERSATILE AND
MODULAR
DESIGN ADAPTS
TO YOUR
NEEDS

Key Features and Specs:

- Ultra-lightweight folding chair in swing-away or fixed front frame
- Modular frame option. Can upgrade from std to HD if weight increases
- One free growth kit within first 5 years
- Transit option available
- Seat width 18" – 22"
- Seat depth up to 20"

QUICKIE 2[®] HD

Modular Frame Design

The versatility of the QUICKIE 2 HD is in its modular wheelchair frame that adapts with you as your function, body, and environment change. Independent, interchangeable frame components accommodate changing conditions without having to replace the entire wheelchair. You're always getting the best from your QUICKIE 2 HD.

7000 Series Aluminum

7000 Series Aerospace Aluminum makes the redesigned crossbrace more rigid, stronger, and lighter. The stronger frame results in an increased weight capacity of 300 lbs. (350 lbs. for HD), while the overall chair weight is reduced.

HD weight capacity

350 lbs.

Standard weight capacity

300 lbs.

FOLDING

HIGH
STRENGTH
MODULAR
FRAME

Key Features and Specs:

- A variety of interchangeable frame components allow the M6 to adjust as your needs change
- Seat width 22" – 30"
- Seat depth 18" – 22"
- Seat height 17" – 20"
- Weight 53 lbs. with legrests

QUICKIE M6[®]

Modular, High-Strength Frame

The M6's modular frame, modeled after the industry favorite QUICKIE 2, features high strength steel for increased wheelchair durability.

Locking Crossbrace and Stabilizer Bar

The M6 utilizes a double locking crossbrace and stabilizer bar to minimize frame flex and create a more rigid ride quality. This ensures that more energy transfers directly from your arms or feet to the axles for the most efficient propulsion.

**HD weight capacity
650 lbs.**

RIGID

A CLASSIC QUICKIE RIGID WHEELCHAIR

Key Features and Specs:

- Heavy duty option up to 350 lbs. through Built-4-Me
- Seat widths up to 20" standard, and more available through Built-4-Me
- Seat depths up to 22" standard, more available through Built-4-Me

QUICKIE GP[®] SERIES

The Ultimate Rigid Frame

With over 25 years of loyal users, the GP's hand-crafted, box frame has stood the test of time. Its one piece construction exceeds QUICKIE's superior standard of quality and delivers an unmatched rigid feel to your wheelchair.

Tapered and Swing-Away Front Frame Options

The GP's multiple front frame options and angles give you the positioning you need without having to sacrifice a rigid frame wheelchair. Choose between the standard GP, tapered GPV for increased maneuverability, or the GP swing-away for easy transfers and the option of elevating legrests.

HD weight capacity 350 lbs.

(Available through Built-4-Me)

Standard weight capacity 250 lbs.

TILT-IN-SPACE

SUPERIOR STANDARD FOR ROTATION- IN-SPACE TECHNOLOGY

Key Features and Specs:

- One of the lightest weight tilt-in-space wheelchairs today (39 lbs.)
- Fixed or width adjustable strut tubes
- One free growth kit within first 5 years (only on non-SE models)
- Ultra low seat-to-floor height as low as 12.5"
- Seat width up to 24" and seat depths up to 22"
- Transit option available on HD model
- Reverse configuration available

QUICKIE IRIS[®] HD

Power Tilt Option

The Power Tilt option gives the user more control over the position of their body in space and improves comfort by assisting with sitting tolerance. It provides more independence to participate in daily activities and to engage more with the world and others. The Power Tilt is available for the IRIS, IRIS heavy duty and the SR45.

Attendant Control

Allows the caregiver to give control of the tilt function to the user. The battery gauge is displayed on the top of the control so you never have to guess when it's time to charge. Ability to conveniently hang the attendant control anywhere on the chair.

Toggle Switch

Can be mounted vertically or horizontally depending on needs. Charging port is conveniently located on the toggle switch for easy access.
